

Edward White

The first American astronaut to walk in space!

Who Was He and What Did He Do?

- Edward was born in 1930, in the USA.
- He flew with a fighter squadron in Germany.
- He was an experimental test pilot.
- He flew the Gemini 4 for NASA.

Did you know?

He did more than 3000 hours of flying!

What Is He Remembered For?

- Edward walked in space for 21 minutes.
- He was the first American man to control himself in space outside the spacecraft.
- He earned many awards.
- He was described as a brave man.
- Edward died in the Apollo spacecraft fire in 1967, at only 36 years old.

Questions

1. Where was Edward White born? Tick one.

UK

USA

Germany

2. Which spacecraft was he a pilot on for NASA? Tick one.

Apollo 13

Twinkl 1

Gemini 4

3. How long did he walk in space for? Tick one.

21 minutes

12 hours

211 days

4. How is he described? Tick one.

as a nice man

as a brave man

as a tall man

5. Which facts about Edward White are true? Tick two.

He didn't earn any awards.

He was the first American to walk in space.

He sadly died in a spacecraft fire at 36 years old.

Answers

1. Where was Edward White born? Tick one.

 UK **USA** Germany

2. Which spacecraft was he a pilot on for NASA? Tick one.

 Apollo 13 Twinkl 1 **Gemini 4**

3. How long did he walk in space for? Tick one.

 21 minutes 12 hours 211 days

4. How is he described? Tick one.

 as a nice man **as a brave man** as a tall man

5. Which facts about Edward White are true? Tick two.

 He didn't earn any awards. **He was the first American to walk in space.** **He sadly died in a spacecraft fire at 36 years old.**

Edward White

Edward White was the first American astronaut to walk in space!

Who Was He and What Did He Do?

Edward was born 1930, in Texas, USA. He had a Bachelor of Science and a Master of Science degree. He completed flight training in the USA, flew with a fighter squadron in Germany and worked as an experimental test pilot.

Did you know?

He completed more than 3000 hours flying time!

What Were His Big Achievements?

Edward was selected by NASA (National Aeronautics and Space Administration) to join them as an astronaut. He became a pilot of Gemini 4 for a 4-day mission in 1965. During the mission, he went outside the spacecraft for 21 minutes; becoming the first American man to control himself in space outside the spacecraft. He earned many awards, including the NASA Exceptional Service Medal.

What Is He Remembered For?

Edward White is remembered for being the first American to walk in space! His conversation with McDivitt was well remembered, including, "I'm coming back in... and it's the saddest moment of my life." Edward White died in the Apollo spacecraft fire in 1967 at the NASA Kennedy Space Center, USA, at only 36 years old.

Questions

1. What subject are Edward's degrees in? Tick one.

PE

Science

Maths

2. Where was he born? Tick one.

Germany

Florida, USA

Texas, USA

3. What does NASA stand for? Tick one.

Not a Space Astronaut

Nice American Space Animal

National Aeronautics and Space Administration

4. Find and copy **one word** which means 'be in charge of'

5. Complete the sentence by adding in the missing words.

Edward White is remembered for being the

_____ in space!

Answers

1. What subject are Edward's degrees in? Tick one.

PE

Science

Maths

2. Where was he born? Tick one.

Germany

Florida, USA

Texas, USA

3. What does NASA stand for? Tick one.

Not a Space Astronaut

Nice American Space Animal

National Aeronautics and Space Administration

4. Find and copy **one word** which means 'be in charge of'
control

5. Complete the sentence by adding in the missing words.

Edward White is remembered for being the **first American to walk**
in space!

Edward White

Edward White was the first American astronaut to walk in space.

Who Was He and What Did He Do?

Edward was born on 14th November 1930 in Texas, USA. He had a Bachelor of Science and a Master of Science degree in Aeronautical Engineering. He completed flight training as an Air Force Lieutenant Colonel in Florida and Texas. He flew F-86 and F-100 planes with a fighter squadron in Germany and then went to Air Force Test Pilot School in California, USA. He also worked as an experimental test pilot in Ohio, USA.

Did you know?

Edward White completed more than 3000 hours flying time!

What Were His Big Achievements?

Edward was selected by NASA (National Aeronautics and Space Administration) in 1962 to join the astronaut team. He became a pilot of Gemini 4 for a 4-day mission from 3rd June to 7th June 1965. During the mission, he went outside the Gemini 4 spacecraft for 21 minutes; becoming the first man in the United States-manned space flight program to control himself in space outside the spacecraft. The cabin was depressurised, doors opened, and scientific and medical experiments were carried out. He was awarded many special honours and awards, including the NASA Exceptional Service Medal and Senior Astronaut Wings.

What Is He Remembered For?

Edward White is remembered for being the first American to walk in space! He was a brave man and only one other astronaut had ever walked in space before him. Some very memorable quotes came from White and McDivitt's conversation during that mission, for example, "I'm coming back in... and it's the saddest moment of my life." Edward White sadly died in the Apollo spacecraft fire in 1967, at the NASA Kennedy Space Center, USA. He was only 36 years old.

Questions

1. What was his masters Science degree in? Tick one.

Space

Aeronautical Engineering

Maths

2. What did he do in Germany before Air Force Test Pilot School?

3. Tick two true facts.

He completed more than 3000 hours flying time.

He was the first American astronaut to walk in space.

He was on the spacecraft with Alexey Leonov.

4. Find and copy **one word** which means 'heroic'.

5. Complete the sentence.

During the _____, he went outside the _____ spacecraft for _____; becoming the first man in the United States-manned space flight program to _____.

6. How do you think Edward White felt coming back into the spacecraft after his space walk and how do you know?

Answers

1. What was his masters Science degree in? Tick one.

Space

Aeronautical Engineering

Maths

2. What did he do in Germany before Air Force Test Pilot School?

3. Tick two true facts.

He completed more than 3000 hours flying time.

He was the first American astronaut to walk in space.

He was on the spacecraft with Alexey Leonov.

4. Find and copy **one word** which means 'heroic'.

brave

5. Complete the sentence.

During the **mission**, he went outside the **Gemini 4** spacecraft for **21 minutes**; becoming the first man in the United States-manned space flight program to **control himself in space outside the spacecraft**.

6. How do you think Edward White felt coming back into the spacecraft after his space walk and how do you know?

Children's own responses.
