## Introduction

"Every child deserves the best possible start in life and the support that enables them to fulfil their potential. Children develop quickly in the early years and a child's experiences between birth and age five have a major impact on their future life chances. A secure, safe and happy childhood is important in its own right. Good parenting and high quality early learning together provide the foundation children need to make the most of their abilities and talents as they grow up.

The Early Years Foundation Stage (EYFS) sets the standards that all early years providers must meet to ensure that children learn and develop well and are kept healthy and safe. It promotes teaching and learning to ensure children's 'school readiness' and gives children the broad range of knowledge and skills that provide the right foundation for good future progress through school and life." - Department for Education's Statutory framework for the early years foundation stage (March 2021).

## The 1decision Early Years Portal

Our Early Years portal has been created to support 'in the moment' planning and does not provide individual or suggested lessons. The choice of when and how to use the 1decision EYFS content is down to the discretion of each setting. If you have any further questions about the content, please contact us at info@1decision.co.uk.

The resources are suitable for children aged 3-5, but may also be suitable for older children, particularly those with SEN.

As you work through this document, you will be able to view which resources support your students in reaching many of the Early Learning Goals (ELGs). Please note, we are continually adding resources.

## Meet the Rainbow Drops!

Students are guided through our Early Years resources by our colourful Rainbow Drop characters. Throughout these resources, the Rainbow Drops will go on many adventures and learn a lot about the wider world that they live in.

If you would like the children to become more familiar with the characters you can use the posters and resources from within the portal to display around your setting, for example using the characters to display the role play, or reading areas. The EYFS area of the 1decision site will continue to grow over time and in direct response to the needs of EYFS and to any government policy changes.

# Resource Overview

	To support little learners further we have re-invented our storybooks. Children can now read along, learning valuable vocabulary to help their personal, social and emotional development (PSED).
Read-to-Me Storybooks	An Early Years subscription currently offers 40 online storybooks but we are continually working to create more. As these are produced, they will be added to the portal and mapping document automatically. All books focus on real life scenarios within school, home, and the community e.g. a child getting glasses for the first time or learning about how all families are special and unique.
	To see which Read-to-Me Storybooks are included within our Early Years Portal, please see pages 6-9.
Animated	Our 40 delightful, high quality animations bring the EYFS read-to-me storybooks to life. These are short animations all with a specific theme linked to real life scenarios that children may face now, or in the future.
Storybooks	Following the animations, children may explore the themes further by using the read-to-me storybooks, associated talking and sorting cards, and suggested extension activities. New animations will automatically be added to the portal.
	To see which Animated Storybooks are included within our Early Years Portal, please see pages 6-9.
	This fantastic high-quality pack of 52 on-screen cards/pdfs are central to development of personal, social, and emotional education (PSED) in the EYFS setting.
Dilemma Drops	On each card/pdf, a Rainbow Drop will be faced with a dilemma. As a whole class, in small groups, or individually, children can give their ideas and respond on how to help find a solution to the dilemma. Children may wish to act out the dilemma or develop this further in role play. This distanced style approach supports children in learning the skills and vocabulary to support decision making, may they face a similar dilemma now, or in the future.
	To see which Dilemma Drops are included within our Early Years Portal, please see pages 10-16.
Sorting	Our sorting cards games are an additional resource which provide key workers with the opportunity to work in small groups, or one to one, to assess children's understanding of an area covered within a read-to-me storybook or animation.
Sorting Cards	Although linked to a storybook/animation, the sorting card games can also be used as a standalone resource. You will see many more sorting card games added to the portal during the 2021/22 academic year.
	To see which Sorting Card Games are included within our Early Years Portal, please see page 17.

Talking Cards	Our talking card games are an additional resource which provide keyworkers with the opportunity to work in small groups, or one to one, to assess children's understanding of an area covered within a read-to-me storybook or animation. Although linked to a storybook/animation, the talking card games can also be used as a standalone resource. You will see many more talking card games added to the portal during the 2021/22 academic year.  To see which Talking Card Games are included within our Early Years Portal, please see page 18.
Mindfulness and Mini Yoga	Good mental health is important to all of us and our mindfulness videos have been specially created to support young children. These videos take children on a journey through a short mindfulness story and can be used throughout the school day within the setting, or alternatively as an activity to be used in a sensory area for children requiring support with relaxing.  Following the success of our mindfulness videos, we have recently added four mini yoga classes. Please note, children require supervision when taking part in these classes - please see the portal for further details. Support your students'
Videos	well-being and invite them into our magical enchanted world of mini yoga.  To see which Mindfulness and Mini Yoga videos are included within our Early Years Portal, please see pages 19-20.
Phonics	Following the predominantly used 'Letters and Sounds', we have added a range of easy to follow phonics videos, including environmental sound videos, tricky words and much more. Please note, many of the phases will be added over the 2021/22 academic year.
Flash Cards	To see which Phonics videos are included within our Early Years Portal, please see page 21.  Already hosting over 200 flashcards, we are continuing to add these to our portal. If you have any additional words you would like to see, please get in touch and our team will add them for your convenience.  To see which Flash Cards are included within our Early Years Portal, please see page 22.
Extra Activities	Within the Extra Activities area, you will find a wealth of additional and useful resources. For example, a comprehensive new parent/carer pack to be given out to new parents/carers before their child begins at the setting, animated timers, activity worksheets, and much more.  To see which Extra Activities are included within our Early Years Portal, please see page 23.
Posters	To support EYFS settings, we have designed a range of posters. These range from Rainbow Drops signposting children to different areas of the provision, to hand washing posters, and more. These posters will aid children in their independence and will support them in becoming familiar with the Rainbow Drop characters.  To see which Posters are included within our Early Years Portal, please see page 23.

# Are your students RainbowSmart at home?

RainbowSmart is a new app from the creators of the 1decision resources.

This app has been created for the parents and carers of children who are engaging with the 1decision early years resources at school.

## How can this help your school?

This app allows you the opportunity to invite parents/carers to continue classroom learning at home.

For example: if during a session you have been teaching your students about Blue's Indoor Voice, parents/carers can log in to the app and re-visit the story or animation with their children to reinforce the learning at home.

## **Rainbow Drop Timers**

Included within the EYFS portal are three timers: 2 minutes, 5 minutes, and 10 minutes. These are a great addition to any classroom setting.

#### **Posters**

To support EYFS settings we have designed a range of posters. These range from Rainbow Drops signposting children to different areas of the provision, to hand washing posters, and more. These will aid children in their independence and will support them in becoming familiar with the Rainbow Drop characters.

## **Activity Worksheets**

We also provide a selection of additional activity worksheets for your students. Activities include: *Counting Fruits, My School Day, My Family, I Can Draw Myself,* and many more.

You will find many of these activity worksheets mentioned in the mapping document (pages 25-41), and will support you in assessing children's development against many of the new early learning goals.

# The Idecision Resources against the EYFS Framework

This document looks at how the 1decision resources are mapped against the new statutory framework for the early years foundation stage.

Throughout this document, you will be able to see how the 1decision resources link to each individual early learning goal.

Please note, our resources have been created to support 'in the moment' planning and do not provide individual or suggested lessons. The choice of when and how to use the 1decision EYFS content is down to the discretion of each setting.

To support you in locating where each of the areas fit, we have created an easy-to-follow guide which includes all seven areas of the ELG guidance, starting on page 25.

Below you will see each of the 1decision resource types highlighted in a coloured key, which will help you locate the resources easily.

Please note, by using the following resources, early practitioners can assess children against the new early learning goal requirements. However, they may not completely fulfil the requirements and expectations for every child. We have left space in the mapping document for you to add additional resources which you may like to use, to further support each requirement.

## Communication and Language

## ELG: Listening, Attention and Understanding
