

Nursery Milestone for Create - Art & Design

I explore with different materials and know which tools and techniques to use when I am making something.

Milestone 1: I show interest in exploring with different materials and resources in nursery, such as paint and collage.

Milestone 2: I explore with colour and know how to mix colours to create new ones.

Milestone 1: I can create closed shapes with continuous lines and I am using these shapes to represent an object, drawing a face for example with a circle and then adding detail.

Final Milestone: I have my own ideas about what I want to create and can decide which materials to use to express them. I know how to join different materials.

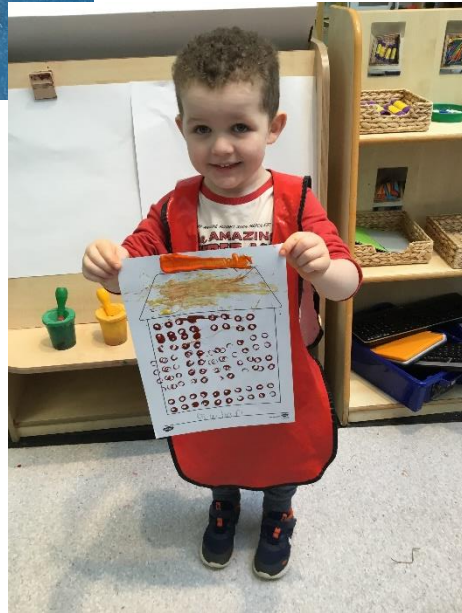

Milestones in Action

Exploring with paint and collage.

I show interest in exploring with different materials and resources in nursery, such as paint and collage.

Exploring 'cold' colours and mixing shades of blue.

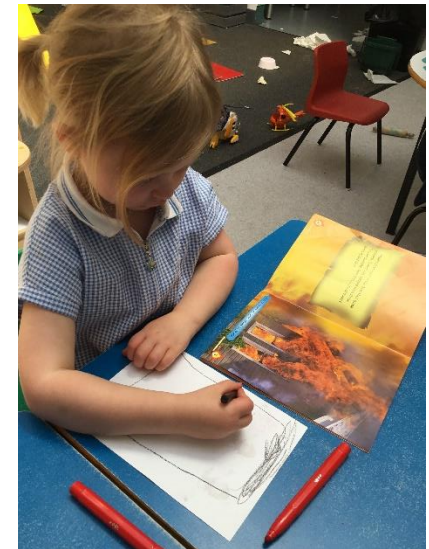

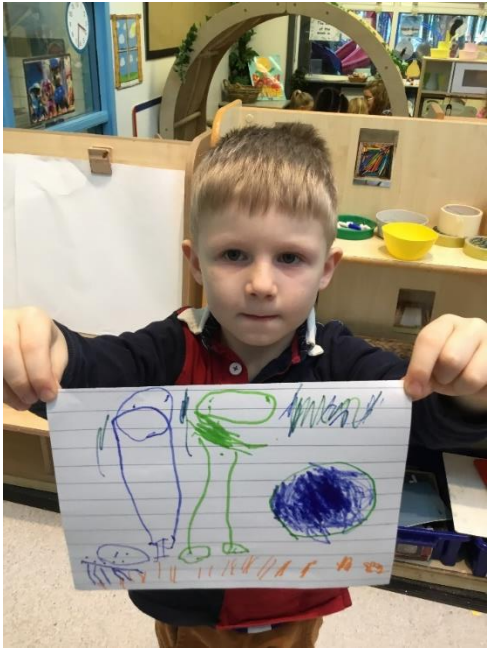

What happens when you mix red and white?

I can paint an object and add detail. Can you guess what it is?

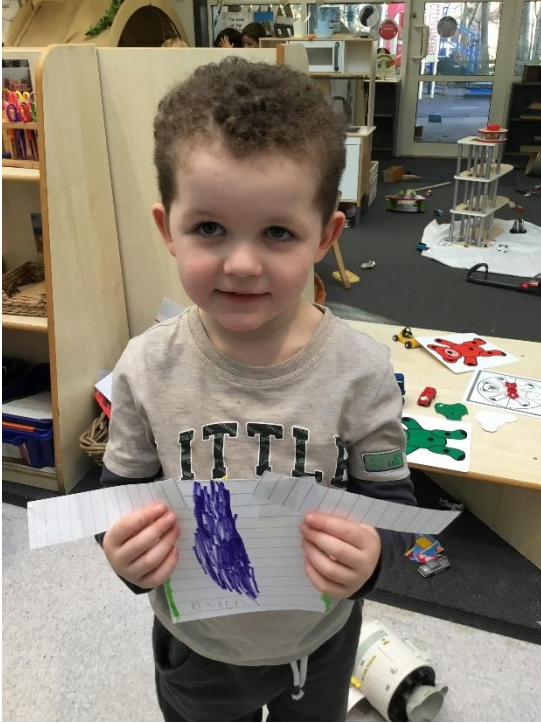

I am using shapes to represent an object, and then adding detail.

I have my own ideas about what I want to create and can decide which materials to use to express them.

I know how to join different materials.

FS2 Milestones for Create - Art & Design

I will show care and understanding of the natural world.

Milestone 1: I will eagerly explore the world around me, make observations and draw pictures of animals and plants.

Milestone 2: I understand some important processes and changes in the natural world, including seasonal change and changing states of matter

Milestone 3: I will show care towards both plants and animals and will comment on change, noticing similarities and differences as I observe both plant and animal life-cycles.
